

# Cats with Chronic Kidney Disease

**Friendship Hospital for Animals is recruiting cats with stage 2 or 3 chronic kidney disease for a one-time therapeutic injection.**

**PARTICIPATION:** Owner must be willing to bring their cat to the Veterinary Hospital for 8 study visits over the course of 10 months. They must complete a weekly questionnaire at home (38 weeks) and cats must eat a renal prescription diet throughout the study. This is a placebo-controlled study but placebo cats will have the option of receiving treatment if they have disease progression. Treatment consists of a one-time ultrasound guided injection into each kidney.

**STUDY BENEFITS:**

**This study is fully funded and at no cost to the owner.** Study treatment and all related procedures and diagnostics are free.

**INCLUSION CRITERIA:**

- 7 years of age or greater
- Lives indoors
- Stage 2 or 3 CKD but in otherwise good health

**Contact: We would be happy to provide you with additional information regarding the study. Please reach out to our Clinical Trials Coordinator, Noa Zeevi at 202-363-7300 or [clinicaltrials@friendshiphospital.com](mailto:clinicaltrials@friendshiphospital.com)**
